Percentage: 70.6%

Class 10 (ICSE) — Swami Hariharanand Public School (2010 – 2020)
Percentage: 71.8%

PROFILE SUMMARY

Flutter and MERN Stack developer creating responsive, mobile-first applications for seamless cross-device use. Experienced in real-time projects, Firebase integration, REST APIs, and scalable architectures. Google UX Design Certified, skilled in wireframing, prototyping, and user research. Proven track record of leading agile front-end projects from concept to launch, delivering intuitive, impactful digital experiences.

PROJECTS

Business Monopoly Board Game

- Designed and developed a **multiplayer business simulation game** in **Flutter** for both **Android** and **iOS**, supporting real-time play across devices.
- Implemented **turn-based logic**, dynamic animations, and smooth state transitions for an engaging user experience.
- Integrated **Provider** for state management and utilized **Firebase Realtime Database** and **Cloud Firestore** for real-time synchronization of game state.
- Built cross-platform responsive UI, ensuring consistent performance on varying screen sizes.

- GitHub: [Monopoly \(GitHub\)](#)

Samanvaya — Real-Time Whiteboard

- Built a collaborative whiteboard using MERN stack & WebSockets
- Added real-time drawing, multiple brush options, and live updates
- Designed intuitive UI for smooth collaboration
- GitHub: [Samanvaya \(GitHub\)](#)

WORK EXPERIENCE

Front-End Intern — IBM Skills Build (3 months, Remote)

- **Led a self-selected team** through the complete web design and development lifecycle for a marine life conservation project aligned with UN SDGs.
- Conducted **requirements gathering, wireframing, and responsive UI design**, ensuring accessibility compliance and cross-device compatibility.
- Developed the website using **HTML, CSS, JavaScript**, and modern front-end practices, delivering a polished product and launched 2 weeks ahead of schedule.
