

ANIKET SINGHAL

Flutter Developer | MERN Stack Developer | UI/UX Designer

Delhi, India | 📞 +91 9311764547 | ✉️ ssinghalaniket@gmail.com | 🌐 Aniket-Singhal | 🎮 AniketS1712

PROFILE SUMMARY

Flutter and MERN Stack developer creating responsive, mobile-first applications for seamless cross-device use. Experienced in real-time projects, Firebase integration, REST APIs, and scalable architectures. Google UX Design Certified, skilled in wireframing, prototyping, and user research. Proven track record of leading agile front-end projects from concept to launch, delivering intuitive, impactful digital experiences.

TECHNICAL SKILLS

Flutter & Dart: Widgets, Navigation, REST API Integration, State Management (Provider/Riverpod)

Tools & Platforms: Firebase, Git & GitHub, Vercel

Additional Tech Stack: React.js, Express.js, MongoDB, Java

Soft Skills: Teamwork, Communication, Problem-Solving, Rapid Learning

WORK EXPERIENCE

Front-End Intern — IBM Skills Build | Remote | 3 Months

- Led a self-selected team through the complete web design and development lifecycle for a marine life conservation project aligned with UN SDGs.
- Conducted requirements gathering, wireframing, and responsive UI design, ensuring accessibility compliance and cross-device compatibility.
- Developed the website using HTML, CSS, and JavaScript with modern front-end practices, delivering a polished product launched 2 weeks ahead of schedule.

PROJECTS

Samanvaya — Real-Time Collaborative Whiteboard

- Built a collaborative whiteboard using MERN stack and WebSockets with real-time drawing, multiple brush options, and live updates.
- Designed an intuitive UI for smooth multi-user collaboration.
- **GitHub:** github.com/AniketS1712/Samanvaya/tree/master

Business Monopoly Board Game — Flutter (Android & iOS)

- Designed and developed a multiplayer business simulation game in Flutter for Android and iOS with turn-based logic, dynamic animations, and smooth state transitions.
- Integrated Provider for state management and Firebase Realtime Database and Cloud Firestore for real-time game state synchronization.
- Built a cross-platform responsive UI ensuring consistent performance across varying screen sizes.
- **GitHub:** github.com/AniketS1712/BusinessGame
